

This policy is under review

2014 NHS Homework Policy

The revision of core learning is a necessity for all students to be successful, and it is an expectation that all students spend time in study when they leave school for the day. Parents and caregivers are encouraged to support the school and their children in relation to homework.

The following times are recommended for students to spend on revision of concepts, researching and revising for mastery and completing set homework tasks:

Year 8 to 10: 3 subjects Monday to Thursday, 2 subjects Friday 60 to 90 minutes of homework per night.

Year 11: 3 subjects per night 100 minutes per night.

Year 12: 120 minutes per night.

We acknowledge that our students have very busy extra-curricula activities that fulfil their lives including sport and part-time work. It is important that students manage the balance for these and for students and parents to communicate with the subject teacher if there are any issues.
